Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which falls of perfect digestion ferments and poisons the system, putting it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. K. Kneale, of Nevada, O., says: "I had stomach trouble and was unable to eat. I had heart trouble with it. I took Kodol Dyspepsia Cure for about two months and it cured me."

Kodol Digests What You Eat

Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

We will be glad to send a sample to any sufferer.

The city council has the chain gang at work deepening the boxed outlet for the drainage of Gurley street at Granite creek. Arizona in general and Prescott in particular ones her present prosperity, her unimpaired opportunities, her wonderful possibilities solely and entirely to the daring Argonaut, the brave unselfish hero, the valiant crusader of modern age—the prospector, who stood valiantly by this grand and questing country in its incipient and embryonic stage, who manfully worked, fought, bled and died, endured all hardships and privations, forewore all pleasures and comforts of civilization, that she might grow from the cradle and cradling clothes and eventually take her place as the crown jewel in the diadem of California.

But we, in our priceless heritage, our peerless present, our propitious probabilities of the future, are beholden and ungrateful to their source and origin, the prospectors. Most of them are gone, a few are left who will soon pass away. His way of life has fallen into the sea and yellow leaf, and that which should accompany old age, as honor, love, hope, obedience, troops of friends, he must not come to have.

So at Christmas with a keen anticipation, buoyed up by recollections of home, in youth, in the states, with a small capital of money and a large capital of fellow feeling, he hies him into Prescott. Conditions, association and assimilation have nullified him for a society hero, so he drifts into a saloon, meets a fellow voyager, is made welcome by him. He has a drink, a dozen, becomes intoxicated, irresponsible, often abusive, and finally keels over in a corner lull to sleep by the click of the paraphernalia of the gambler and the shrill of the harlot and we draw our virtuous skirts aside and say, "Am I my brother's keeper?"

You and I are indirectly responsible for this.

We knew this man, or someone who did know one, who will fall in the next few weeks, sorry for the lack of the milk of human kindness and kindly sympathy. Jointly and uncontentiously arrange for his entertainment. He is usually proud. Give him a genial invitation to a dinner, speak a kind word to him, cheer him up. Okey the mandarin at Old Fellows hall. Miss Carlson has played before audiences in San Francisco, Denver, Los Angeles and other large cities.

Miss Margaret Braden left today for her home in Detroit, Michigan. She has been visiting in Prescott, the guest of her brother, Walter C. Braden and wife, since last April. Quite a number of her friends were at the depot to bid her good bye as she became quite popular in society circles during her visit here and will be greatly missed by the young people still sitting in a chair in the Anheuser saloon on Sunday morning. The deceased had been doing assessment work some distance from town, and came in on Saturday to see a son whom he heard had arrived from the west and was looking for him. He was a member of the Masonic and United Modern Fraternities.—Bisbee Review.

Ben Slaughter, a Cochise county deputy sheriff who disappeared recently without telling his friends where he was going has written a letter to a friend from Port Sling, Costa Rica, in which he says: "I want you to tell Sheriff Lewis where I am and if I do not suit me, I will leave Saturday for Buenos Ayres, South America, and don't know when I will be back, but not soon."

A Washington telegram says that the president has pardoned W. J. Wright. He was convicted in Arizona of criminal assault and sentenced in 1928 to imprisonment for life for the territorial prison. The territorial judge, the district attorney and his assistant later have reported that in view of certain facts they are of the opinion that the prisoner was not guilty of the offense charged and should not have been confined. The attorney general concurred in their view and recommended a pardon.

The funeral of D. G. Locke was held yesterday afternoon at the undertaking parlors of A. J. Bradley. It was under the auspices of the Masonic lodge and was well attended, both by the members of that fraternity and by the many friends of the dead man here and a number of Prescott gentlemen who came down for that purpose. Mr. Locke formerly lived in Prescott and was a member of Aztlan Masonic lodge of that city.—Republican.

ECZEMA SETS THE SKIN ON FIRE

No disease causes so much bodily discomfort, or itches, and burns like Eczema. Beginning often with a slight redness of the skin it gradually spreads, followed by pustules or blisters from which a gummy, sticky fluid oozes which dries and scales off or forms bad looking sores and scabs. It appears on different parts of the body but oftenest upon the back, arms, hands, legs and face, and is a veritable torment at times, especially at night or when over-heated.

The cause of Eczema is a too acid and general unhealthy condition of the blood. The terrifying itching and burning is produced by the overflow through the glands and pores of the skin of the fiery poisons with which the blood-current is overloaded. While external applications, such as washes, soaps, salves and powders are soothing and cooling they do not enter into the blood itself or the real cause of the disease, but S. S. S. does, and purifies, enriches, and strengthens the thin acid blood and cleanses and builds up the general system, when the skin clears off and Eczema with all its terrifying symptoms disappears.
